

Minnesota Veterinary Historical Museum

Help Preserve the
Museum, *Now*

Veterinary Medicine...and the Historical Museum

- *From ether cones to laparoscopic surgery. . .we have come a long way*
- The preservation of Minnesota Veterinary Historical Museum is important to the veterinary professionals everywhere

The Museum Honors Many Veterinarians and their Legacies

- *Did you know...*
- The College of Veterinary Medicine has graduated more than 3,500 students
- Over the past 100 years, 22 diseases have been virtually eliminated from livestock in the U.S.
- 21 College alumni or Minnesota practicing veterinarians became deans of veterinary colleges

The Museum Honors Many Veterinarians and their Legacies

- We are indebted to others in veterinary medicine and their many accomplishments
- These legacies deserve to be remembered and honored...*they play a key role in helping others learn about veterinary medicine today*

The Museum Honors Many Veterinarians and their Legacies

- Five members of the Minnesota veterinary profession have served as president of the American Veterinarian Medical Association
- The Museum collection honors these accomplishments...

and many more!

New Pomeroy Center

- Construction begins this year on the new Ben Pomeroy Student-Alumni Learning Center (Old Dairy Barn)
- Center will include Museum galleries to honor many veterinarians, their accomplishments and the profession

Galleries Will Honor Dr. Ben Pomeroy and Others

- Galleries will recognize many accomplishments of Dr. Pomeroy and other noted veterinarians
 - Dr. Benjamin S. Pomeroy Gallery
 - Honors Gallery will recognize the accomplishments of many other veterinarians

Dr. Pomeroy Was Nationally Known for His Work

- Dr. Benjamin S. Pomeroy...
 - Born in St. Paul, he received his degree from Iowa State University in 1944
 - Known and honored worldwide, especially for his work in poultry diseases
 - His work also benefits swine, cattle and small animal industry

Dr. Pomeroy Was Leader In Veterinary Medicine

- Beloved research expert, professor and friend
 - Well-respected author, faculty member and student mentor
 - Played leadership role in working with state legislators and others regarding the important role of veterinary medicine in Minnesota and elsewhere

We Need Your Help...

- Our goal is to raise \$750,000 for an endowment and operating funds
 - Purchase materials for these galleries
 - Update existing Museum displays
 - Hire a part-time, paid curator to professionally manage these displays, maintain other Museum resources *and more...*
 - Create an online learning system
 - Offer computerized modeling and computer access to catalogued Museum collection

...And We Need Your Help Now

- We need funding now to purchase display materials for the Galleries in the new Pomeroy Center – construction of the Center begins later this year
- Museum volunteers, many of whom are retired faculty members, can no longer maintain – much less update – the current Museum

We Must Continue This Great Tradition With...

- New display galleries in the Pomeroy Center
- Updated existing Museum displays that will complement the new galleries
- A paid, part-time curator

Here's What You Can Do

- *Help us meet the financial goal of \$750,000*
 - An endowment and operating funds for the new Pomeroy Center displays, an update of the current Museum and a part-time, paid curator
- The Museum is a 501 (c)(3) organization and all contributions are tax-deductible
- Various giving levels exist to honor significant donors and organizations

The Museum Deserves Your Support

- *Without your help*, the current Museum will become obsolete; there will be no new galleries
- The new Pomeroy Center will not visually acknowledge the accomplishments of veterinary professionals such as Ben Pomeroy and others
- The current Museum collection will be available on a very limited basis (several hours a week), if at all
- The treasure-trove of medical equipment, photographs, instruments and other artifacts will no longer be preserved

Donate to this Worthy Effort - Support the Veterinary Profession and the Museum!
